

System Requirements for Illinois REALTORS® Online Courses and Webinars

Our online courses and webinars are hosted on the Eastern Illinois University's D2L online learning platform.

Hardware

The D2L platform will work on a desktop computer, laptop, tablet, or other mobile device. To ensure a better experience, we recommend using a desktop or laptop computer with the following specifications:

- Memory (RAM): 2GB or more
- Wireless Card: 802.11 b/g/n or 802.11ac
- Ethernet Card: 10/100 capable

Operating System

Our wireless network uses a network access management software called SafeConnect. This helps to ensure our student computers are meeting some recommended standards to prevent virus outbreaks.

SafeConnect supports the following Operating Systems:

- Windows 7
- Windows 8
- Windows 10
- Windows RT
- Mac OS X 10.10
- Mac OS X 10.11
- Mac OS X 10.12
- Mac OS X 10.13
- Mac iOS 7.0 or higher
- iOS
- Android
- Chrome OS

Any beta versions of operating systems are not supported (example: Windows Technical Preview or Mac OS X Public Beta).

As operating systems are updated, SafeConnect is updated to support them.

Occasionally, there will be a delay between operating system updates and SafeConnect Support.
